

Transform the meeting room experience

Intel® SDM USB-C Interface Board

A single cable connects you to a world of collaboration! USB Type-C connectivity transforms the meeting room experience, enabling Bring Your Own Device workflows that drive today's productive meeting practices.

Upgrade your existing NEC MultiSync® ME1 and M1 Series Large Format Display with the new SDM USB-C Interface Board to bring seamless collaborative experiences to your meeting room. Or choose a NEC MultiSync® display with integrated USB-C interface in sizes up to 98 inches.

The benefits of USB-C

- No more cable clutter, just a single connection
- Simple and effortless, no more connection frustration
- The connected notebook receives power in return
- Instant meeting start-up for BYOD workflows
- USB-C cable available in 5m and 7m lengths
